Thanks to its scenic location and charm Leba is one of the most popular destinations on the Polish coast, boasting excellent tourist infrastructure. A few kilometers east of town on semi forested sand dune one can visit a beautiful lighthouse – **Stilo**. Leba is famous for its broad light sand beaches, excellent climate and the unique moving sand dunes in the nearby **Slowinski National Park**.
- **Torpedo Launchers** – there are two old German torpedo launchers on the Gdansk Bay near Babie Doly and Oksywie Cape, built at the bottom of the sea, few hundred meters off the coast. Both date to the WWII period, and served as a testing range. First one, called **Formoza** is still employed by the Polish army.
